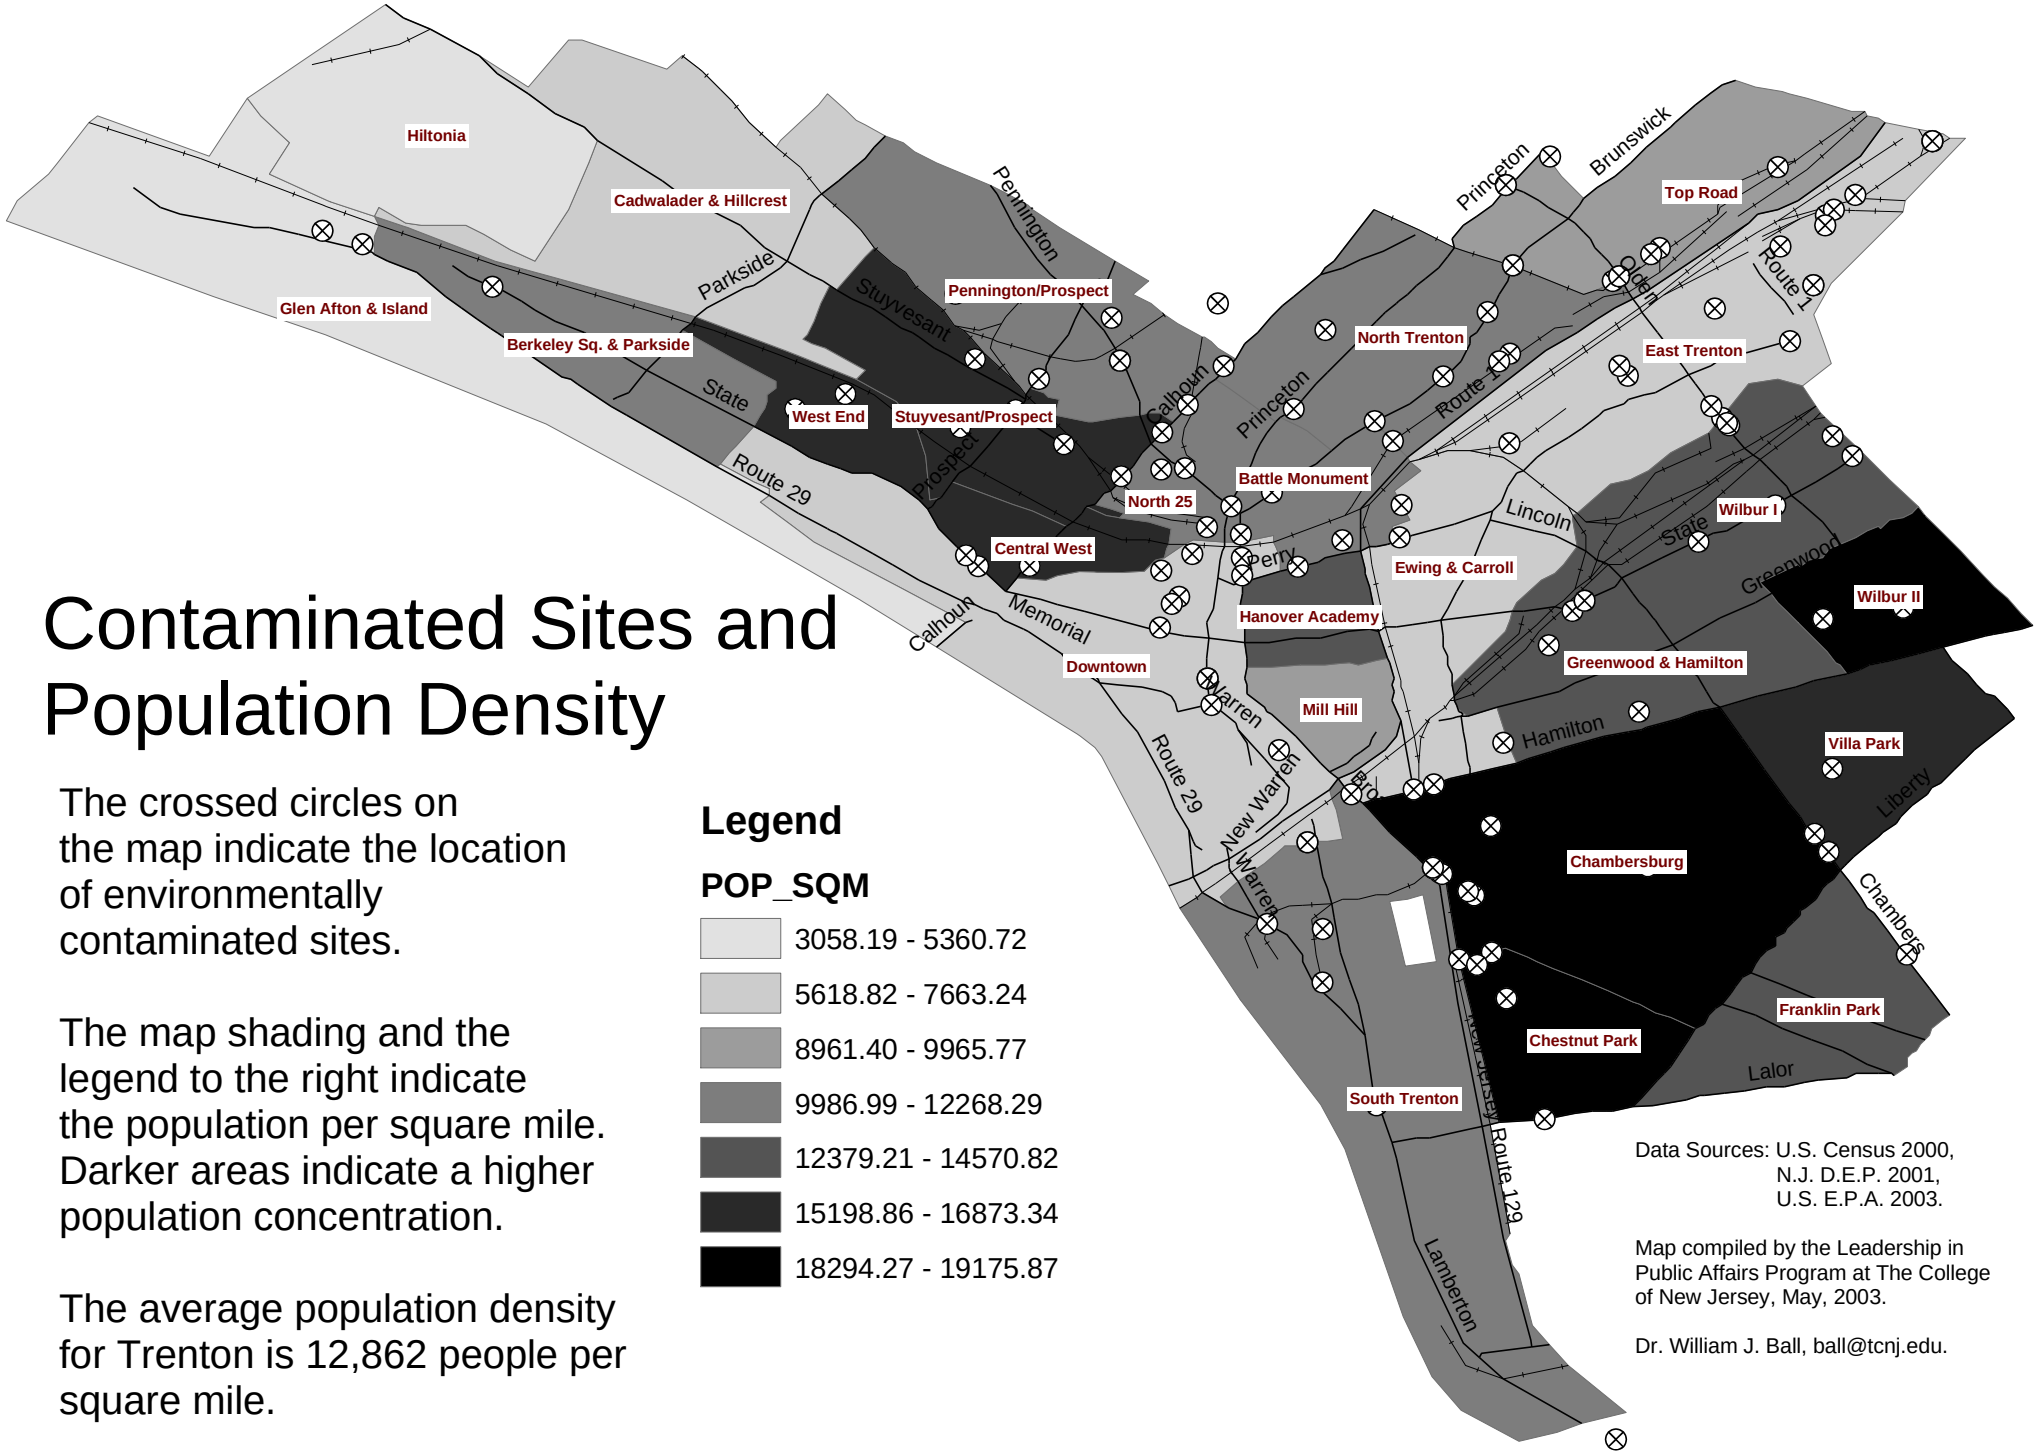
Contaminated Sites and Population Density

The crossed circles on the map indicate the location of environmentally contaminated sites.

The map shading and the legend to the right indicate the population per square mile. Darker areas indicate a higher population concentration.

The average population density for Trenton is 12,862 people per square mile.



Legend

POP_SQM

	3058.19 - 5360.72
	5618.82 - 7663.24
	8961.40 - 9965.77
	9986.99 - 12268.29
	12379.21 - 14570.82
	15198.86 - 16873.34
	18294.27 - 19175.87
